HONEYWELL AND NATIONAL CENTER FOR MISSING & EXPLOITED CHILDREN ANNOUNCE FIFTH ANNUAL “GOT 2B SAFE!” AWARDS

America’s Safest Teachers Can Win a \$10,000 Classroom Makeover

MORRIS TOWNSHIP, N.J., February 12, 2010 – Honeywell (NYSE: HON) and the National Center for Missing & Exploited Children® (NCMEC) today announced the launch of the fifth annual “Got 2B Safe!” Awards. The program is designed to encourage teachers at U.S. elementary schools to help their students learn valuable and potentially life-saving lessons. While most are recovered quickly, the U.S. Department of Justice reports that an estimated 2,000 children are reported missing each day.

Got 2B Safe! provides teachers with child safety teaching tools and annually recognizes five teachers who develop the most creative lesson plans. Winners receive a classroom makeover worth \$10,000 and 100 other teachers will win \$500 worth of school supplies. Makeovers include an overall redesign of the classroom with themes chosen by the teachers, and materials including the Got 2B Safe! safety rules. The Got 2B Safe! Awards program will be open until March 26, 2010. Educators can log on to www.got2bsafe.com for information about the contest and to submit an essay emphasizing how they effectively taught their students the Got 2B Safe! Four Rules of Safety for a chance to win.

“It is crucial to arm our children with positive, empowering lessons to help them recognize and avoid potentially dangerous situations,” said Tom Buckmaster, president, Honeywell Hometown Solutions. “Participation in the Got 2B Safe! Awards program gives teachers an opportunity to educate their students, parents and communities to be smarter about personal safety.”

Since 2003, Honeywell and NCMEC have worked together on Got 2B Safe!. The program fills a critical gap – no other nationwide abduction prevention program exists for schools. Got 2B Safe! focuses on educating eight to ten-year-olds and their families on how to help prevent child abduction and sexual exploitation. It provides teachers, parents and guardians with tools to keep children safer. To date, Got 2B Safe! has been distributed to 240,000 principals and teachers, and more than 72,000 schools in the United States- reaching an estimated five million students.

“Teaching children about personal safety should be a priority,” said Ernie Allen, president and CEO of NCMEC. “We are excited to be working with Honeywell on the Got 2B Safe! Awards program, to educate teachers, children and the community-at-large about how to prevent child abduction and sexual exploitation.”

Got 2B Safe! teaches simple rules to help prevent child abduction and sexual exploitation through the Got 2B Safe! Four Rules of Safety:

- **Check First** -- Children should always check with parents and guardians before accepting gifts, rides, or invitations from anyone, including friends, acquaintances and people they don't know.
- **Go With a Friend** -- Simple and straightforward -- never go anywhere alone. Being with another person in public is safer and more fun.
- **It's My Body** - Teach your children they have the right to say NO to any unwelcome, uncomfortable, or confusing touch or actions by others.
- **Tell a Trusted Adult** -- Teach your children to TELL a trusted adult -- parent, guardian, teacher, etc. -- if anyone or anything makes them feel scared, uncomfortable or confused.

“When I was younger, my parents stressed the importance of saying ‘no’ to strangers,” said Danielle Kovach, a 2009 Grand Prize winner. “As a parent and teacher, I realize that this tactic is no longer a child’s best defense. Through Honeywell’s Got 2B Safe! Program, teachers and parents have the resources to teach children the necessary steps to protect themselves against child predators. As a teacher, I have the privilege to reach many children and to instill a positive influence in their lives.”

The Got 2B Safe! program has won nine awards within the corporate social responsibility industry. It is a signature program of Honeywell Hometown Solutions, the company’s corporate citizenship initiative.

About Honeywell
